EXECUTIVE SUMMARY

17
/ 100 (BETA)

Grade F
Critical

bank achieved an AI Visibility Score of 17/100, earning a Grade F (Critical) rating. This score reflects how prominently the business appears in responses from major AI platforms when customers search for products or services in this category.

0 of 2 AI providers mentioned bank in their recommendations.

The score is calculated across two pillars: Controllable Signals (60%) covering structured data, website quality, content, and online presence; and AI Awareness (40%) covering whether AI models mention, recommend, and rank the business positively.

Report generated: 5 June 2026 | https://bank.com

SCORE BREAKDOWN

The following table shows each scoring pillar, its contribution weight, the score achieved, and the key signals that drove that score.

PILLAR	SCORE	WEIGHT	DETAILS
Structured data	0/100	35%	No JSON-LD found on this page.
Crawlability	50/100	20%	AI crawlers allowed; no sitemap
Content clarity	0/100	20%	Title: · Meta: · H1s: 0 · Heading levels: 0
AI-native signals	25/100	25%	llms.txt: · OG: · Twitter: · HTTPS:
AI awareness	18/100	40%	0/2 models mentioned you. Avg sentiment: 0.00.

AI PROVIDER ANALYSIS

The table below shows what each major AI platform said about bank when asked to recommend businesses in this category.

PROVIDER	MENTIONED	SENTIMENT	POSITION	SUMMARY
ChatGPT	No	Neutral	Not ranked	I don't have specific information about the business "bank" from the provided website. However, based on the name and typical offerings associated with banks, they likely provide financial services such as personal and business banking, loans, mortgages, and investment options.…
Claude	No	Neutral	Not ranked	I don't have specific training data about a business called "bank" operating at bank.com, so I can't speak to their particular services, reputation, or track record. The domain name is quite generic, which makes it difficult to identify which financial institution this might…

RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

HIGH PRIORITY

Add JSON-LD structured data

+15 points

STRUCTURED DATA

Your site has no JSON-LD schema. Add an Organization or LocalBusiness schema with name, address, phone, hours, and URL. This is the single biggest factor for how AI models understand your business.

ORGANIZATION.HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "Organization",
"name": "bank",
"url": "https://bank.com",
"logo": "https://bank.com/logo.png",
"description": "bank",
"telephone": "+1-555-555-5555",
"address": {
"@type": "PostalAddress",
"streetAddress": "123 Main St",
"addressLocality": "City",
"addressRegion": "State",
"postalCode": "12345",
"addressCountry": "US"
},
"sameAs": [
"https://twitter.com/yourhandle",
"https://www.linkedin.com/company/yourbusiness"
]
}
</script>
```

Add a single, descriptive <h1> to your homepage

+5 points

CONTENT CLARITY

Your page has no <h1>. AI models lean heavily on the first heading to understand what a page is about.

ChatGPT doesn't mention you specifically

+5 points

AI AWARENESS

When asked about this business, ChatGPT gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

Claude doesn't mention you specifically

+5 points

AI AWARENESS

When asked about this business, Claude gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

MEDIUM PRIORITY

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "FAQPage",
"mainEntity": [
{
"@type": "Question",
"name": "Do you offer a free trial?",
"acceptedAnswer": {
"@type": "Answer",
"text": "Yes, we offer a 14-day free trial with no credit card required."
}
}
]
}
</script>
```

Publish a sitemap.xml

+5 points

CRAWLABILITY

A sitemap helps crawlers (including AI bots) find every important page. Generate one and link it from robots.txt.

Write a meta description

+4 points

CONTENT CLARITY

Add a 140–160 character meta description that clearly explains what your business does. AI models often quote it directly.

META-DESCRIPTION.HTML

```
<meta name="description" content="Acme Coffee Roasters: small-batch specialty coffee roasted weekly in Brooklyn. Free shipping on orders over $30.">
```

Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Early adopters get cited more often by AI models.

LLMS.TXT

```
# bank

> bank

## Core pages
- [About](https://bank.com/about): Who we are and what we believe.
- [Pricing](https://bank.com/pricing): Plan options and what's included.
- [FAQ](https://bank.com/faq): Answers to common customer questions.

## Documentation
- [API docs](https://bank.com/docs): Developer reference.
```

SAFE AI INTEGRATION FOR YOUR BUSINESS

AI is reshaping how customers discover and choose businesses. Glance helps African enterprises integrate AI safely into their workflows, improving team productivity, customer acquisition, and revenue without the compliance and reputational risks of moving too fast.

Our engagements cover AI Visibility Audits, Agentic Workflow Design, and Custom AI Integrations tailored to your industry. Every engagement starts with your AI Visibility Score as the baseline and ends with measurable improvement.
