RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

MEDIUM PRIORITY

Complete your Organization schema fields

+6 points

STRUCTURED DATA

Your Organization schema is missing key fields. AI models use `name` to identify you and `telephone`/`address` to answer 'how do I contact X'. Add the missing fields to unlock the full score.

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

```
FAQ-SCHEMA.HTML
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "FAQPage",
  "mainEntity": [
    {
      "@type": "Question",
      "name": "Do you offer a free trial?",
      "acceptedAnswer": {
        "@type": "Answer",
        "text": "Yes, we offer a 14-day free trial with no credit card required."
      }
    }
  ]
}
</script>
```

LOW PRIORITY

Add alt text to 29 images

+2 points

CONTENT CLARITY

29 of your images are missing alt text. Descriptive alt text (e.g. "team working in our Harare office") improves both accessibility and AI understanding of your page.

Add labels to 5 form fields

+1 point

AGENTIC COMPATIBILITY

5 form inputs have no associated label. AI agents filling forms on behalf of users rely on <label for=""> or aria-label to understand what each field is for. Unlabeled fields get skipped or filled incorrectly.
