D

AI Visibility Grade

Scored 28 June 2026 | Report ID: c19e-4d8d | (Beta)

EXECUTIVE SUMMARY

34
/ 100 (BETA)
Grade D
Needs work

Netone achieved an AI Visibility Score of 34/100, earning a Grade D (Needs work) rating. This score reflects how prominently the business appears in responses from major AI platforms when customers search for products or services in this category.

2 of 3 AI providers mentioned Netone in their recommendations.

The score is calculated across two pillars: Controllable Signals (60%) covering structured data, website quality, content, and online presence; and AI Awareness (40%) covering whether AI models mention, recommend, and rank the business positively.

Report generated: 28 June 2026 | <https://netone.co.zw>

SCORE BREAKDOWN

The following table shows each scoring pillar, its contribution weight, the score achieved, and the key signals that drove that score.

PILLAR	SCORE	WEIGHT	DETAILS
Structured data	0/100	35%	No JSON-LD found on this page.
Crawlability	50/100	20%	AI crawlers allowed; no sitemap
Content clarity	0/100	20%	Title: no · Meta: no · H1s: 0 · Heading levels: 0
AI-native signals	25/100	25%	llms.txt: no · OG: no · Twitter: no · HTTPS: yes
AI awareness	60/100	40%	2/3 models mentioned you. Avg sentiment: -0.07.

AI PROVIDER ANALYSIS

The table below shows what each major AI platform said about Netone when asked to recommend businesses in this category.

PROVIDER	MENTIONED	SENTIMENT	POSITION	SUMMARY
ChatGPT	Yes	Neutral	Not ranked	NetOne is a state-owned mobile network operator in Zimbabwe, offering services such as voice calls, data, and mobile financial solutions. Established in 1996, it is the country's second-largest telecom provider. ([netone.co.zw](https://www.netone.co.zw/about?utm_source=openai))...
Claude	No	Neutral	Not ranked	# About Netone I don't have specific information about Netone in my knowledge base, so I can't speak to their exact reputation or service quality from direct experience. However, based on the .co.zw domain, this appears to be a telecommunications or internet service provider...
Gemini	Yes	Neutral	#2	NetOne is a state-owned mobile network operator in Zimbabwe, offering a range of telecommunication services including voice, SMS, mobile data (3G and 4G/LTE), and mobile money services under the OneMoney brand. They are known for providing nationwide coverage, reaching both...

RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

HIGH PRIORITY

Add JSON-LD structured data

+15 points

STRUCTURED DATA

Your site has no JSON-LD schema. Add an Organization or LocalBusiness schema with name, address, phone, hours, and URL. This is the single biggest factor for how AI models understand your business.

ORGANIZATION.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "name": "Netone",
  "url": "https://netone.co.zw",
  "logo": "https://netone.co.zw/logo.png",
  "description": "Netone",
  "telephone": "+1-555-555-5555",
  "address": {
    "@type": "PostalAddress",
    "streetAddress": "123 Main St",
    "addressLocality": "City",
    "addressRegion": "State",
    "postalCode": "12345",
    "addressCountry": "US"
  },
  "sameAs": [
    "https://twitter.com/yourhandle",
    "https://www.linkedin.com/company/yourbusiness"
  ]
}
</script>
```

Add a single, descriptive <h1> to your homepage

+5 points

CONTENT CLARITY

Your page has no <h1>. AI models lean heavily on the first heading to understand what a page is about.

Claude doesn't mention you specifically

+5 points

AI AWARENESS

When asked about this business, Claude gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

Negative sentiment in Gemini's response

+4 points

AI AWARENESS

Gemini surfaced concerns about this business. Review the raw response, address the underlying issue (or correct misinformation by publishing clear, factual content on the site).

MEDIUM PRIORITY

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "FAQPage",
  "mainEntity": [
    {
      "@type": "Question",
      "name": "Do you offer a free trial?",
      "acceptedAnswer": {
        "@type": "Answer",
        "text": "Yes, we offer a 14-day free trial with no credit card required."
      }
    }
  ]
}
</script>
```

Publish a sitemap.xml

+5 points

CRAWLABILITY

A sitemap helps crawlers (including AI bots) find every important page. Generate one and link it from robots.txt.

Write a meta description

+4 points

CONTENT CLARITY

Add a 140–160 character meta description that clearly explains what your business does. AI models often quote it directly.

META-DESCRIPTION.HTML

```
<meta name="description" content="Acme Coffee Roasters: small-batch specialty coffee roasted weekly in Brooklyn. Free shipping on orders over $30.">
```

Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Respected by OpenAI (GPTBot), Anthropic (ClaudeBot), and Perplexity crawlers — not used by Google AI, but still increases your overall AI crawler reach.

LLMS.TXT

```
# Netone
```

```
> Netone
```
