D

AI Visibility Grade

Scored 21 June 2026 | Report ID: d5aa-4f89 | (Beta)

EXECUTIVE SUMMARY

Upwork achieved an AI Visibility Score of 46/100, earning a Grade D (Needs work) rating. This score reflects how prominently the business appears in responses from major AI platforms when customers search for products or services in this category.

3 of 3 AI providers mentioned Upwork in their recommendations. Industry: SaaS / software.

The score is calculated across two pillars: Controllable Signals (60%) covering structured data, website quality, content, and online presence; and AI Awareness (40%) covering whether AI models mention, recommend, and rank the business positively.

Report generated: 21 June 2026 | <https://upwork.com>

SCORE BREAKDOWN

The following table shows each scoring pillar, its contribution weight, the score achieved, and the key signals that drove that score.

PILLAR	SCORE	WEIGHT	DETAILS
Structured data	0/100	35%	No JSON-LD found on this page.
Crawlability	50/100	20%	AI crawlers allowed; no sitemap
Content clarity	0/100	20%	Title: no · Meta: no · H1s: 0 · Heading levels: 0
AI-native signals	25/100	25%	llms.txt: no · OG: no · Twitter: no · HTTPS: yes
AI awareness	90/100	40%	3/3 models mentioned you. Avg sentiment: 0.45.

AI PROVIDER ANALYSIS

The table below shows what each major AI platform said about Upwork when asked to recommend businesses in this category.

PROVIDER	MENTIONED	SENTIMENT	POSITION	SUMMARY
ChatGPT	Yes	Neutral	#1	Upwork is a leading online freelancing platform that connects businesses with independent professionals across various fields, including development, design, marketing, and writing. Established in 2015 from the merger of Elance and oDesk, Upwork has grown to become a...
Claude	Yes	Positive	#1	# Upwork Overview Upwork is a leading free-lance marketplace platform that connects businesses and individuals with independent contractors across a wide range of fields—from software development and design to writing, marketing, and administrative work. The platform operates on...
Gemini	Yes	Positive	#2	Upwork is a prominent online marketplace that connects businesses with a global network of independent professionals across various industries, including software development, design, marketing, writing, and customer support. It operates on a hybrid marketplace model,...

RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

HIGH PRIORITY

Add JSON-LD structured data

+15 points

STRUCTURED DATA

Your site has no JSON-LD schema. Add an Organization or LocalBusiness schema with name, address, phone, hours, and URL. This is the single biggest factor for how AI models understand your business.

ORGANIZATION.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "name": "Upwork",
  "url": "https://upwork.com",
  "logo": "https://upwork.com/logo.png",
  "description": "Upwork — SaaS / software.",
  "telephone": "+1-555-555-5555",
  "address": {
    "@type": "PostalAddress",
    "streetAddress": "123 Main St",
    "addressLocality": "City",
    "addressRegion": "State",
    "postalCode": "12345",
    "addressCountry": "US"
  },
  "sameAs": [
    "https://twitter.com/yourhandle",
    "https://www.linkedin.com/company/yourbusiness"
  ]
}
</script>
```

Add a single, descriptive <h1> to your homepage

+5 points

CONTENT CLARITY

Your page has no <h1>. AI models lean heavily on the first heading to understand what a page is about.

MEDIUM PRIORITY

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "FAQPage",
  "mainEntity": [
    {
      "@type": "Question",
      "name": "Do you offer a free trial?",
      "acceptedAnswer": {
        "@type": "Answer",
        "text": "Yes, we offer a 14-day free trial with no credit card required."
      }
    }
  ]
}
</script>
```

Publish a sitemap.xml

+5 points

CRAWLABILITY

A sitemap helps crawlers (including AI bots) find every important page. Generate one and link it from robots.txt.

Write a meta description

+4 points

CONTENT CLARITY

Add a 140–160 character meta description that clearly explains what your business does. AI models often quote it directly.

META-DESCRIPTION.HTML

```
<meta name="description" content="Acme Coffee Roasters: small-batch specialty coffee roasted weekly in Brooklyn. Free shipping on orders over $30.">
```

Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Respected by OpenAI (GPTBot), Anthropic (ClaudeBot), and Perplexity crawlers — not used by Google AI, but still increases your overall AI crawler reach.

LLMS.TXT

```
# Upwork
```

```
> Upwork — SaaS / software.
```
