Grade F
Critical

Econet achieved an AI Visibility Score of 28/100, earning a Grade F (Critical) rating. This score reflects how prominently the business appears in responses from major AI platforms when customers search for products or services in this category.

1 of 3 AI providers mentioned Econet in their recommendations.

The score is calculated across two pillars: Controllable Signals (60%) covering structured data, website quality, content, and online presence; and AI Awareness (40%) covering whether AI models mention, recommend, and rank the business positively.

Report generated: 6 June 2026 | https://econet.co.zw

RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

HIGH PRIORITY

Add JSON-LD structured data

+15 points

STRUCTURED DATA

Your site has no JSON-LD schema. Add an Organization or LocalBusiness schema with name, address, phone, hours, and URL. This is the single biggest factor for how AI models understand your business.

ORGANIZATION.HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "Organization",
"name": "Econet",
"url": "https://econet.co.zw",
"logo": "https://econet.co.zw/logo.png",
"description": "Econet",
"telephone": "+1-555-555-5555",
"address": {
"@type": "PostalAddress",
"streetAddress": "123 Main St",
"addressLocality": "City",
"addressRegion": "State",
"postalCode": "12345",
"addressCountry": "US"
},
"sameAs": [
"https://twitter.com/yourhandle",
"https://www.linkedin.com/company/yourbusiness"
]
}
</script>
```

Add a single, descriptive <h1> to your homepage

+5 points

CONTENT CLARITY

Your page has no <h1>. AI models lean heavily on the first heading to understand what a page is about.

Claude doesn't mention you specifically

+5 points

AI AWARENESS

When asked about this business, Claude gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

Gemini doesn't mention you specifically

+5 points

AI AWARENESS

When asked about this business, Gemini gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

MEDIUM PRIORITY

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "FAQPage",
"mainEntity": [
{
"@type": "Question",
"name": "Do you offer a free trial?",
"acceptedAnswer": {
"@type": "Answer",
"text": "Yes, we offer a 14-day free trial with no credit card required."
}
}
]
}
</script>
```

Publish a sitemap.xml

+5 points

CRAWLABILITY

A sitemap helps crawlers (including AI bots) find every important page. Generate one and link it from robots.txt.

Write a meta description

+4 points

CONTENT CLARITY

Add a 140–160 character meta description that clearly explains what your business does. AI models often quote it directly.

META-DESCRIPTION.HTML

```
<meta name="description" content="Acme Coffee Roasters: small-batch specialty coffee roasted weekly in Brooklyn. Free shipping on orders over $30.">
```

Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Early adopters get cited more often by AI models.

LLMS.TXT

```
