RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

MEDIUM PRIORITY

Complete your Organization schema fields

+6 points

STRUCTURED DATA

Your Organization schema is missing key fields. AI models use `name` to identify you and `telephone`/`address` to answer 'how do I contact X'. Add the missing fields to unlock the full score.

Declare your social profiles in your Organization schema (sameAs)

+4 points

STRUCTURED DATA

Your site links to 6 social profiles (Facebook, Twitter / X, LinkedIn, GitHub, Instagram, YouTube), but your Organization schema has no sameAs array declaring them. sameAs is how AI models confirm those profiles and your website are the same entity — without it, signals from your social presence don't consolidate onto your business.

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

LOW PRIORITY

Add alt text to 29 images

+2 points

CONTENT CLARITY

29 of your images are missing alt text. Descriptive alt text (e.g. "team working in our Harare office") improves both accessibility and AI understanding of your page.

Add labels to 5 form fields

+1 point

AGENTIC COMPATIBILITY

5 form inputs have no associated label. AI agents filling forms on behalf of users rely on `<label for="">` or `aria-label` to understand what each field is for. Unlabeled fields get skipped or filled incorrectly.

SAFE AI INTEGRATION FOR YOUR BUSINESS

AI is reshaping how customers discover and choose businesses. Glance helps African enterprises integrate AI safely into their workflows, improving team productivity, customer acquisition, and revenue without the compliance and reputational risks of moving too fast.

Our engagements cover AI Visibility Audits, Agentic Workflow Design, and Custom AI Integrations tailored to your industry. Every engagement starts with your AI Visibility Score as the baseline and ends with measurable improvement.
