EXECUTIVE SUMMARY

76
/ 100 (BETA)

Grade B
Good

Apple achieved an AI Visibility Score of 76/100, earning a Grade B (Good) rating. This score reflects how prominently the business appears in responses from major AI platforms when customers search for products or services in this category.

3 of 3 AI providers mentioned Apple in their recommendations.

The score is calculated across two pillars: Controllable Signals (60%) covering structured data, website quality, content, and online presence; and AI Awareness (40%) covering whether AI models mention, recommend, and rank the business positively.

Report generated: 12 July 2026 | https://apple.com

SCORE BREAKDOWN

The following table shows each scoring pillar, its contribution weight, the score achieved, and the key signals that drove that score.

PILLAR	SCORE	WEIGHT	DETAILS
Structured data	52/100	35%	JSON-LD detected: Organization, WebSite, WebPage
Crawlability	100/100	20%	AI crawlers allowed; sitemap present
Content clarity	67/100	20%	Title: yes · Meta: no · H1s: 1 · Heading levels: 3
AI-native signals	50/100	25%	llms.txt: no · OG: yes · Twitter: no · HTTPS: yes
AI awareness	93/100	40%	3/3 models mentioned you. Avg sentiment: 0.50. Avg recommendation rank: 1.0.

AI PROVIDER ANALYSIS

The table below shows what each major AI platform said about Apple when asked to recommend businesses in this category.

PROVIDER	MENTIONED	SENTIMENT	POSITION	SUMMARY
ChatGPT	Yes	Neutral	#1	Apple Inc. is a multinational technology company renowned for its innovative consumer electronics, including the iPhone, iPad, Mac computers, Apple Watch, and AirPods. They also offer a range of services such as the App Store, Apple Music, Apple TV, and iCloud, creating a…
Claude	Yes	Positive	#1	# About Apple Apple is one of the world's largest technology companies, known for designing and selling premium consumer electronics, software, and services. Their main product lines include iPhones (smartphones), MacBooks and iMacs (computers), iPads (tablets), Apple Watches,…
Gemini	Yes	Positive	#1	Apple Inc. is a globally recognized technology company that designs, manufactures, and markets a wide range of consumer electronics, software, and online services. Their core offerings include the iPhone, Mac computers (iMac, MacBook Air, MacBook Pro, Mac mini, Mac Studio, Mac…

RECOMMENDATIONS

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

MEDIUM PRIORITY

Complete your Organization schema fields

+6 points

STRUCTURED DATA

Your Organization schema is missing key fields. AI models use `name` to identify you and `telephone`/`address` to answer 'how do I contact X'. Add the missing fields to unlock the full score.

Declare your social profiles in your Organization schema (sameAs)

+4 points

STRUCTURED DATA

Your Organization schema has no sameAs array. Listing your official social and directory profiles there is how AI models ground your identity — confirming your website, LinkedIn, and other profiles are the same entity.

```
"sameAs": [
"https://www.linkedin.com/company/yourbusiness",
"https://twitter.com/yourhandle"
]
```

Add an FAQ schema with common questions

+6 points

STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@type": "FAQPage",
"mainEntity": [
{
"@type": "Question",
"name": "Do you offer a free trial?",
"acceptedAnswer": {
"@type": "Answer",
"text": "Yes, we offer a 14-day free trial with no credit card required."
}
}
]
}
</script>
```

Write a meta description

+4 points

CONTENT CLARITY

Add a 140–160 character meta description that clearly explains what your business does. AI models often quote it directly.

META-DESCRIPTION.HTML

```
<meta name="description" content="Acme Coffee Roasters: small-batch specialty coffee roasted weekly in Brooklyn. Free shipping on orders over $30.">
```

Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Respected by OpenAI (GPTBot), Anthropic (ClaudeBot), and Perplexity crawlers — not used by Google AI, but still increases your overall AI crawler reach.

LLMS.TXT

```
# Apple

> Apple

## Core pages
- [About](https://apple.com/about): Who we are and what we believe.
- [Pricing](https://apple.com/pricing): Plan options and what's included.
- [FAQ](https://apple.com/faq): Answers to common customer questions.

## Documentation
- [API docs](https://apple.com/docs): Developer reference.
```

Add Twitter Card metadata

+3 points

AI-NATIVE

Your page is missing Twitter Card tags. Perplexity, Gemini, and Bing use og:description as their summary of a business, and Grok reads Twitter Card metadata directly. A few meta tags control how AI systems describe you.

```
<meta property="og:title" content="Apple" />
<meta property="og:description" content="Apple" />
<meta property="og:image" content="https://apple.com/og-image.png" />
<meta property="og:type" content="website" />
<meta property="og:url" content="https://apple.com" />
<meta name="twitter:card" content="summary_large_image" />
<meta name="twitter:title" content="Apple" />
<meta name="twitter:description" content="Apple" />
```

LOW PRIORITY

Add alt text to 40 images

+2 points

CONTENT CLARITY

40 of your images are missing alt text. Descriptive alt text (e.g. "team working in our Harare office") improves both accessibility and AI understanding of your page.

SAFE AI INTEGRATION FOR YOUR BUSINESS

AI is reshaping how customers discover and choose businesses. Glance helps African enterprises integrate AI safely into their workflows, improving team productivity, customer acquisition, and revenue without the compliance and reputational risks of moving too fast.

Our engagements cover AI Visibility Audits, Agentic Workflow Design, and Custom AI Integrations tailored to your industry. Every engagement starts with your AI Visibility Score as the baseline and ends with measurable improvement.
