# RECOMMENDATIONS

---

The following recommendations are prioritized by estimated impact on your AI Visibility Score.

## HIGH PRIORITY

---

### Add JSON-LD structured data

+15 points

#### STRUCTURED DATA

Your site has no JSON-LD schema. Add an Organization or LocalBusiness schema with name, address, phone, hours, and URL. This is the single biggest factor for how AI models understand your business.

##### ORGANIZATION.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "name": "AfriBlocks",
  "url": "https://afriblocks.com",
  "logo": "https://afriblocks.com/logo.png",
  "description": "AfriBlocks",
  "telephone": "+1-555-555-5555",
  "address": {
    "@type": "PostalAddress",
    "streetAddress": "123 Main St",
    "addressLocality": "City",
    "addressRegion": "State",
    "postalCode": "12345",
    "addressCountry": "US"
  },
  "sameAs": [
    "https://twitter.com/yourhandle",
    "https://www.linkedin.com/company/yourbusiness"
  ]
}
</script>
```

### Add a single, descriptive <h1> to your homepage

+5 points

#### CONTENT CLARITY

Your page has no <h1>. AI models lean heavily on the first heading to understand what a page is about.

### ChatGPT doesn't mention you specifically

+5 points

#### AI AWARENESS

When asked about this business, ChatGPT gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

### Claude doesn't mention you specifically

+5 points

#### AI AWARENESS

When asked about this business, Claude gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

### Gemini doesn't mention you specifically

+5 points

#### AI AWARENESS

When asked about this business, Gemini gave a generic answer. Build out structured data, get listed in directories that this model trusts, and publish authoritative content about the offering.

## MEDIUM PRIORITY

### Add an FAQ schema with common questions

+6 points

#### STRUCTURED DATA

FAQ schemas are heavily mined by AI chatbots. Pick the 5–10 questions customers actually ask and answer them on your site with FAQPage markup.

#### FAQ-SCHEMA.HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "FAQPage",
  "mainEntity": [
    {
      "@type": "Question",
      "name": "Do you offer a free trial?",
      "acceptedAnswer": {
        "@type": "Answer",
        "text": "Yes, we offer a 14-day free trial with no credit card required."
      }
    }
  ]
}
</script>
```

## Publish an llms.txt file

+7 points

AI-NATIVE

llms.txt is an emerging standard (like robots.txt for AI). Add /llms.txt at your root listing your most important pages with brief descriptions. Early adopters get cited more often by AI models.

```
LLMS.TXT
